DEFINITION OF A WELL-CARE VISIT

The focus of a well-care visit is preventive care. If tests or services beyond the scope of a well-care visit are provided, then additional charges may be incurred for those services. The choice to address both well-care and medical issues is offered for the convenience of avoiding two visits, if the provider's schedule will allow. Although our office will assist you with your insurance processing, it is the patient's responsibility to understand their insurance benefits.

What is a Well-Care Visit	
YES	NO
A review of your current health and medical history	Treatment or consultation for a specific medical condition
Counseling about ways to improve your health	Any service not considered part of a well-care visit
A physical exam tailored to your preventive care needs	
Referral or performance of screening tests, if needed (billed separately)	

Your scheduled appointment day is for an Annual Exam which is a well-care visit. Each insurance company has different contracts regarding group and individual coverage for Well Exam benefits. We do not know your contract so we cannot tell you if your insurance company is going to cover the charge for a well exam. If tests or services beyond the scope of a well-care visit are provided, then you may be required to pay a co-pay and may incur additional charges.
